PERSONAL Born May 21, 1972, in Baarland, The Netherlands. Dutch Citizenship.

EMPLOYMENT Full Professor at the Methodology Unit of the Department of Psychology, University of Amsterdam.

2012–current. Full Professor “Neurocognitive Modeling: Interdisciplinary Integration” for the Cognitive Science Center Amsterdam (CSCA) at the University of Amsterdam.

2018–2023. Research fellow on an ERC Advanced grant, awarded by the European Research Council. Main interests: Bayesian hypothesis testing and cognitive modeling.

2017–2023. Research fellow on a personal Vici grant, awarded by the Netherlands Organisation for Scientific Research (NWO). Main interests: hypothesis testing and model selection, open science practices, Bayesian inference, and philosophy of science.

2012–2017. Research fellow on an ERC Consolidator grant, awarded by the European Research Council. Main interests: Bayesian hypothesis testing, cognitive modeling, and the interaction between quantitative modeling and cognitive neuroscience.

2012–2016. Honorary Professor “Formal Models in Cognitive Science” for the Department of Psychology at the University of Groningen.

2007–2012. Research fellow on a personal Vidi grant, awarded by the Netherlands Organisation for Scientific Research (NWO). Main interests: response time modeling, hypothesis testing and model selection, Bayesian inference, reinforcement learning, and the interaction between quantitative modeling and cognitive neuroscience.

2004–2007. Research fellow on a personal Veni grant, awarded by the Netherlands Organisation for Scientific Research (NWO). Main interests: long-range correlations in psychological time series, response time modeling, model selection methods, development of expertise, and reinforcement learning.

2003–2004. Postdoctoral fellow with Han van der Maas and Peter Molenaar, University of Amsterdam. Main interests: Modeling phase transitions using

stochastic catastrophe theory, with possible application to response times.

2001–2003. Postdoctoral fellow with Roger Ratcliff, Northwestern University. Main interests: Lexical decision, time series analysis, response time modeling, and model selection methods.

1996–2000. Graduate student with Jeroen Raaijmakers, University of Amsterdam. Main interests: Modeling of human memory and visual word recognition. September 1998–May 1999: Fulbright scholarship to work with Rich Shiffrin, Indiana University. Thesis title: Priming in visual word recognition: Empirical studies and computational models. Doctorate awarded November 14, 2001.

1994–1996: Undergraduate student with Ritske de Jong, University of Groningen. Main interests: Aging, task switching, and response times. Master awarded August 30, 1996.

PROFESSIONAL SERVICE

- Founder and CEO of JASP (Jeffreys’s Amazing Statistics Program; jasp-stats.org), a free and open-source software program for statistical analyses. JASP has an intuitive interface and offers an increasing number of analysis procedures in both their classical and Bayesian form.
- Member of the editorial board for *Advances in Methods and Practices in Psychological Science*, 2021–present.
- Member of the Board of Directors for the *Association for Psychological Science*, 2021–present.
- Advisory board member for the *Ninth International Congress on Peer Review and Scientific Publication*, to take place September 8-10, 2022 in Chicago, USA.
- Member of the DARPA SCORE Editorial Team, 2019–present. Project title: “Assessing and Predicting Replicability of Social–Behavioral Science Findings”.
- Member of the editorial board for *Computational Brain & Behavior*, 2017–present.
- Member of the panel tasked to review the TNO report “Status of the TNO Model Chain Groningen per October 1, 2021 and recommendations for the public Seismic Hazard and Risk Analysis 2022” (with Jean–Paul Ampuero).
- Member of the advisory counsel for *Advances in Methods and Practices in Psychological Science*, 2017–2021.
- Guest editor for the two special issues “Recent contributions to MPT modeling” and “Recent contributions to CCT modeling and beyond”, honoring the scientific legacy of William H. Batchelder. *Journal of Mathematical Psychology*, 2020, Vol. 99 (with Edgar Erdfelder, Xiangen Hu, and Jeffrey N. Rouder).

- Member of the committee on Replication Research (“Replicatieonderzoek”) organized by the Royal Netherlands Academy of Arts and Sciences (KNAW), 2016–2017.
- Member of the Editorial Board (expertise: “meta-research”), *PLoS Biology*, 2016–2018.
- Associate Editor for statistical methods and practices at *Psychonomic Bulletin & Review*, 2015–2017.
- Member of the search committee for the next editor of *Psychological Science*, 2015.
- Guest editor for the special issue “Bayes factors for Testing Hypotheses in Psychological Research: Practical Relevance and New Developments”, *Journal of Mathematical Psychology*, 2016 (with Joris Mulder). Vol. 72, pp. 1–220.
- Editor of the Methodology volume of *Stevens’ Handbook of Experimental Psychology and Cognitive Neuroscience* (2018).
- Statistical consulting for the CHDI foundation (<https://chdifoundation.org/>), 2014–present.
- Advisory Board, *PsychFileDrawer.org* project, 2011–present.
- Editorial Advisory Board, *Journal of Open Psychology Data*, 2012–present.
- Statistical Consultant Editor for *Comprehensive Results in Social Psychology*, 2014–present.
- Member of the board of consulting editors for *Journal of Mathematical Psychology*, 2010–present.
- Editor of the Tutorial Section in *Journal of Mathematical Psychology*, 2008–2015.
- Member of the board of consulting editors for *Psychological Review*, 2011–2015.
- Member of the board of consulting editors (i.e., member of the “Review Editorial Board”) for *Frontiers in Decision Neuroscience*, 2010–2015.
- Guest editor for the special issue “A Discussion of Publication Bias and the Test for Excess Significance”, *Journal of Mathematical Psychology*, 2013, Vol. 57, issue 5, pp. 155–195.
- Associate Editor for *Psychonomic Bulletin & Review*, 2010–2013.
- Vice-president of the *Society for Mathematical Psychology*, 2012–2013.
- Associate Editor for *Cognitive Psychology*, 2009–2013.
- Guest Associate Editor for *Psychometrika*, 2013.
- Guest editor for the special section “Replicability in Psychological Science: A Crisis of Confidence?”, *Perspectives on Psychological Science*, 2012 (with Hal Pashler). Vol. 7, issue 6, pp. 528–654.
- President of the *Society for Mathematical Psychology*, 2011–2012.

- Member of the board of consulting editors for *Journal of Experimental Psychology: Learning, Memory, and Cognition*, 2009.
- Member of the board of consulting editors for *Psychonomic Bulletin & Review*, 2006–2009.
- Member of the editorial board for *Journal of Mathematical Psychology*, 2006–2009.
- Guest editor for the special issue “Model Selection: Theoretical Developments and Applications”, *Journal of Mathematical Psychology*, 2006, Vol. 50, issue 2, pp. 99–214 (with Lourens Waldorp).

ORGANIZATIONAL ACTIVITIES

- Together with Angelika Stefan, Frederik Aust, and Richard Morey, part of the organizing committee for the seventh annual two-day JASP workshop “Theory and Practice of Bayesian Hypothesis Testing”. The online workshop took place August 26–27, 2021 and attracted 73 participants.
- Together with Angelika Stefan, Charlotte Tanis, Fabian Dablander, and Richard Morey, part of the organizing committee for the sixth annual two-day JASP workshop “Theory and Practice of Bayesian Hypothesis Testing”. The online workshop took place August 24–25, 2020 and attracted 50 participants.
- Together with Johnny van Doorn, Quentin Gronau, Alexander Etz, Alexandra Sarafoglou, Don van den Bergh, Angelika Stefan, Šimon Kucharský, Alexander Ly, Fabian Dablander, Suzanne Hoogeveen, Koen Derks, Noah van Dongen, and Michael Lee, part of the organizing committee for the one-week “Ninth Annual JAGS and WinBUGS Workshop: Bayesian Modeling for Cognitive Science”. The workshop took place August 26–30, 2019, in Amsterdam, the Netherlands, and attracted 37 participants.
- Together with Johnny van Doorn, Quentin Gronau, and Richard Morey, part of the organizing committee for the fifth annual two-day JASP workshop “Theory and Practice of Bayesian Hypothesis Testing”. The workshop took place August 22–23, 2019, in Amsterdam, the Netherlands, and attracted 30 participants.
- Together with Johnny van Doorn, Quentin Gronau, Alexander Ly, and Richard Morey, part of the organizing committee for the fourth annual two-day JASP workshop “Theory and Practice of Bayesian Hypothesis Testing”. The workshop took place August 27–28, 2018, in Amsterdam, the Netherlands, and attracted 50 participants.
- Together with Johnny van Doorn, Quentin Gronau, Alexander Etz, Dora Matzke, Alexander Ly, and Michael Lee, part of the organizing committee for the one-week “Eighth Annual JAGS and WinBUGS Workshop: Bayesian Modeling for Cognitive Science”. The workshop took place August 20–24, 2018, in Amsterdam, the Netherlands, and attracted 66 participants.
- Together with Johnny van Doorn, Quentin Gronau, Alexander Ly, Dora Matzke, and Richard Morey, part of the organizing committee for the third annual two-day JASP workshop “Theory and Practice of Bayesian

Hypothesis Testing”. The workshop took place August 28–29, 2017, in Amsterdam, the Netherlands, and attracted 50 participants.

- Together with Johnny van Doorn, Dora Matzke, Alexander Ly, Udo Boehm, Quentin Gronau, Alexander Etz, and Michael Lee, part of the organizing committee for the one-week “Seventh Annual JAGS and WinBUGS Workshop: Bayesian Modeling for Cognitive Science”. The workshop took place August 21–25, 2017, in Amsterdam, the Netherlands, and attracted 40 participants.
- Together with Richard Morey, Ravi Selker, Alexander Ly, Dora Matzke, Helen Steingroever, Johnny van Doorn, Maarten Marsman, and Quentin Gronau, part of the organizing committee for the second annual two-day JASP workshop “Theory and Practice of Bayesian Hypothesis Testing”. The workshop took place August 22–23, 2016, in Amsterdam, the Netherlands, and attracted 70 participants.
- Together with Dora Matzke, Helen Steingroever, Alexander Ly, Ravi Selker, Johnny van Doorn, Udo Boehm, Quentin Gronau, and Michael Lee, part of the organizing committee for the one-week “Sixth Annual JAGS and WinBUGS Workshop: Bayesian Modeling for Cognitive Science”. The workshop took place August 15–19, 2016, in Amsterdam, the Netherlands, and attracted 65 participants.
- Together with Jaap Murre and Rene Zeelenberg, part of the organizing committee for a one-day international symposium in honor of Prof. dr. J. G. W. Raaijmakers. The symposium took place June 30, 2016, in Amsterdam, the Netherlands.
- Together with Amy Criss and Joachim Vandekerckhove, part of the *Society for Mathematical Psychology* organizing committee for the symposium “Computational Approaches to Cognition”, a one-day pre-conference to the 57th annual meeting of the *Psychonomic Society*. The symposium took place November 17, 2016, in Boston, USA, and attracted 150 participants.
- Together with Amy Criss and Joachim Vandekerckhove, part of the *Society for Mathematical Psychology* organizing committee for the symposium “Computational Approaches to Cognition”, a one-day pre-conference to the 56th annual meeting of the *Psychonomic Society*. The symposium took place November 19, 2015, in Chicago, USA, and attracted 76 participants.
- Together with Jonathon Love, Richard Morey, Dora Matzke, Alexander Ly, Ravi Selker, Helen Steingroever, Maarten Marsman, Tahira Jamil, Quentin Gronau, Damian Dropmann, and Michael Lee, part of the organizing committee for the two-day “First Annual JASP Workshop”. The workshop took place August 6–7, 2015, in Amsterdam, the Netherlands, and attracted 33 participants.
- Together with Jonathon Love, organized the workshop “Teaching Bayesian statistics with JASP” at 48th Annual Meeting for the Society of Mathematical Psychology (Newport Beach, USA), July 17, 2015.

- Together with Jonathon Love and Richard Morey, organized the workshop “Bayesian hypothesis testing using JASP” at the SARMAC conference (Victoria, Canada), June 24, 2015.
- Together with Dora Matzke and Francis Tuerlinckx, part of the organizing committee for the one-week seminar “Bayesian Methods for the Social Sciences”. Participants included students from the University of Amsterdam, University of Glasgow, University of Graz, University of Leuven, University of Lisbon, University Complutense of Madrid, University of Oldenburg, University of Padova, University of Tartu, and University of Tübingen. The seminar took place March 22–28, 2015, in Balatonföldvár, Hungary.
- Together with Jonathon Love and Richard Morey, organized the workshop “Bayesian hypothesis testing using JASP” for the International Convention of Psychological Science (ICPS), Amsterdam, the Netherlands, March 12–14, 2015.
- Together with Dora Matzke, Helen Steingroever, Alexander Ly, Ravi Selker, Maarten Marsman, Tahira Jamil, Johnny van Doorn, Udo Boehm, Quentin Gronau, Damian Dropmann, Jonathon Love, and Michael Lee, part of the organizing committee for the one-week “Fifth Annual JAGS and WinBUGS Workshop: Bayesian Modeling for Cognitive Science”. The workshop took place August 10–14, 2015, in Amsterdam, the Netherlands, and attracted 51 participants.
- Chair of the committee on preregistration for the workshop “Standards for Promoting Reproducible Research in the Social-Behavioral Sciences”, Charlottesville, November 2–3, 2014.
- Together with Dora Matzke, Helen Steingroever, Alexander Ly, Tahira Jamil, Jonathon Love, Josine Verhagen, and Michael Lee, part of the organizing committee for the one-week “Fourth Annual WinBUGS Workshop: Bayesian Modeling for Cognitive Science”. The workshop took place August 11–15, 2014, in Amsterdam, the Netherlands, and attracted 56 participants.
- Member of the Program Committee for the Annual Convention of the Association for Psychological Science, 2014–2016.
- Together with Agneta Fischer and Gerben van Kleef, part of the organizing committee for the lecture series “Replicability and Transparency in Psychological Research” (2013–2014).
- Together with Dora Matzke, Helen Steingroever, Alexander Ly, and Michael Lee, part of the organizing committee for the one-week workshop “Bayesian Modeling for Cognitive Science”. The workshop took place August 12–16, 2013, in Amsterdam, the Netherlands, and attracted 50 participants.
- Local coordinator of the Socrates–Erasmus Intensive Programme 2012, 2013, and 2014 on “Quantitative Approaches to Psychological Processes: Modeling, Testing, Fitting”.

- Together with Dora Matzke, Helen Steingroever, and Michael Lee, part of the organizing committee for the one-week workshop “Bayesian Modeling for Cognitive Science”. The workshop took place July 2–6, 2012, in Amsterdam, the Netherlands, and attracted 37 participants.
- Together with Birte Forstmann, part of the organizing committee for the Academy Colloquium “New Insights from Model-Based Cognitive Neuroscience” funded by the Royal Netherlands Academy of Arts and Sciences (KNAW). The colloquium took place in Amsterdam, May 2012.
- Together with Ruud Wetzels, Dora Matzke, and Michael Lee, part of the organizing committee for the one-week workshop “Bayesian Modeling for Cognitive Science”. The workshop took place August 22–26, 2011, in Amsterdam, the Netherlands, and attracted 48 participants.
- Chair of the organizing committee for the 42nd annual meeting of the *Society for Mathematical Psychology* and the 40th annual meeting of the *European Mathematical Psychology Group*. The joint meeting took place August 1–4, 2009, in Amsterdam, the Netherlands, and attracted over 250 participants.
- Global coordinator of the Socrates–Erasmus Intensive Programme 2008, 2009, and 2010 on “Formal Models and Quantitative Methods for Psychology”, a European-wide initiative to promote mathematical modeling in psychology. Participating institutions: University of Amsterdam, International University Bremen, University of Debrecen, University of Glasgow, University of Graz, University of Leuven, University of Lisbon, University Complutense of Madrid, University of Oldenburg, University of Padova, University of Tartu, University of Oulu, and University of Tübingen.
- Local coordinator of the Socrates–Erasmus Intensive Programme 2005, 2006, and 2007 on “Mathematical and Computational Models in the Psychological Sciences”.
- Organized the symposium “Modeling Response Times” for the 71th annual meeting of the Psychometrics Society, Montreal, Canada, June 14–17, 2006.
- Co-organized a three-day workshop “Model Selection: Theoretical Developments and Applications”, in Amsterdam, the Netherlands, August 2004. Participants included Marc Aerts, Jim Berger, Ken Bollen, Michael Browne, Ken Burnham, Laurie Davies, Aart de Vos, Malcolm Forster, Paul Vitanyi, and Jay Myung. External funding was provided by NWO.
- Co-organized a three-day workshop “Computational Models of Memory” in Amsterdam, the Netherlands, September 2001. Participants included John Anderson, Roger Ratcliff, Rich Shiffrin, Erik Altmann, Randall O’Reilly, Mike Masson, Trish Van Zandt and Art Jacobs. External funding was provided by NWO and the Royal Academy of Arts and Sciences.

AWARDS AND
GRANTS

47. In 2021, the proposal “Precision treatments in monogenic epilepsies: Observational registry and N-of-1 trial recommendations” (PINPOINT) was awarded

a €74,150 grant from the Stichting Life Sciences Health – TKI. Main applicant is Victoria Defelippe Diaz de Espada (University Medical Center Utrecht).

46. In 2020, the PhD project “Theory and Application of Experimental Design Based on Bayesian Hypothesis Testing” was awarded a four-year grant from the China Scholarship Council. PhD student is Binglin Wang.

45. In 2020, the JASP team was awarded a \$500 Mission Award from the Society for Improving Psychological Science (SIPS), for helping spread open/replicable science practices.

44. In 2020, the project “Learn Bayes: A Step-by-Step Interactive JASP Module for Teaching the Foundations of Bayesian Statistics” was awarded a \$5000 grant from the APS Fund for Teaching and Public Understanding of Psychological Science.

43. In 2019, the Erasmus+ Key Action 2 (KA2) Strategic Partnerships Project “Higher Education Learning Platform for Quantitative Thinking” was awarded a €433,686 grant to improve statistical communication and understanding of quantitative concepts. The proposal involved 12 universities across Europe. Main applicant is Aire Raidvee (University of Tartu).

42. In 2019, the proposal “Reliable and Rapid Evaluation of Clinical Evidence in the Public Domain” was awarded a €50,000 NWA Idea Generator grant from the Netherlands Organisation for Scientific Research (NWO). Main applicant is Willem Otte (University Medical Center Utrecht).

41. In 2018, recipient of the €2,000 “connection prize” (verbindingsprijs) from the Netherlands Initiative for Education Research (NRO). The prize recognizes researchers whose work has translated effectively to a product or activity for educational practice.

40. In 2018, the “MaGW research talent” PhD project “Bayes Factor Design Analysis for the Efficient Collection of Informative Data” was awarded a four-year €232,563 grant from the Netherlands Organisation for Scientific Research (NWO). PhD student is Angelika Stefan.

39. In 2018, the “MaGW research talent” PhD project “Inferring Cognitive Strategies from Eye-movement Sequences: A Bayesian Model-based Approach” was awarded a four-year €228,413 grant from the Netherlands Organisation for Scientific Research (NWO). PhD student is Šimon Kucharský.

38. In 2017, named APS Fellow by the Association for Psychological Science. “Fellow status is awarded to APS Members who have made sustained outstanding contributions to the science of psychology in the areas of research, teaching, service, and/or application”.

37. In 2017, the “MaGW research talent” PhD project “Blinded Analysis as a

Cure for the Crisis of Confidence” was awarded a four-year €224,201 grant from the Netherlands Organisation for Scientific Research (NWO). PhD student is Alexandra Sarafoglou.

36. In 2017, the project “A Unified Framework for the Assessment and Application of Cognitive Models” was awarded a five-year €2,500,000 “advanced” grant from the European Research Council.

35. In 2017, the project “Monitoring Evidential Flow: New Bayesian Methods for Medicine and Psychology” was awarded a five-year €1,500,000 “Vici” grant from the Netherlands Organisation for Scientific Research (NWO).

34. In 2016, recipient of the \$10,000 Leamer–Rosenthal Prize for Open Social Science from the Berkeley Initiative for Transparency in the Social Sciences (BITSS). The Leamer–Rosenthal Prizes were launched to “promote transparent research, and to offer recognition and visibility to scholars practicing open social science”.

33. In 2016, the PhD proposal “The Religious Replication Project” was awarded a four-year €193,054 grant from the Templeton Foundation. Main applicant is Michiel van Elk (University of Amsterdam).

32. In 2016, the proposal “JASP Professional Services: A Fresh Way to Analyze Data” was awarded a €39,838 TakeOff grant from the Technology Foundation STW and the Netherlands Organisation for Scientific Research (NWO). Co-applicants are Helen Steingroever and Michiel Klønhammer.

31. In 2016, the “MaGW research talent” PhD project “Accounting for model uncertainty in structural equation modeling: A Bayesian approach” was awarded a four-year €204,474 grant from the Netherlands Organisation for Scientific Research (NWO). PhD student is Quentin F. Gronau.

30. In 2016, the Berkeley Initiative for Transparency in the Social Sciences (BITSS) approved a \$29,767 Social Science Meta-Analysis and Research Transparency (SSMART) grant for the proposal “Bayesian Evidence Synthesis: New Meta-Analytic Procedures for Measuring, Monitoring, Combining, and Projecting Statistical Evidence”.

29. In 2015, the Center for Open Science (COS) approved a \$13,750 incubator grant for integrating JASP and the Open Science Framework. Main applicant: Jonathon Love.

28. In 2015, the Erasmus+ 2015 Key Action 2 (KA2) Strategic Partnerships Project “Tools for Teaching Quantitative Thinking” was awarded a €392,710 grant to improve presentation, research ethics, and programming skills related to quantitative thinking of students from 12 universities across Europe. Main applicant is Martin Lages (University of Glasgow).

27. In 2015, the IOPS PhD project “Bayesian Inference for Ordinal Data in Psychology” was awarded a four-year €200,000 grant from the Netherlands Organisation for Scientific Research (NWO). PhD student is Johnny van Doorn.

26. In 2015, the project “Bayesian Hypothesis Testing without Tears: An Interactive Introduction for Psychology Teachers and Students” was awarded a \$5000 grant from the APS Fund for Teaching and Public Understanding of Psychological Science. Co-applicants are Felix Schönbrodt and Richard Morey.

25. In 2014, the “MaGW research talent” PhD project “A Bayesian approach to mental health assessment in psychiatric detention centers” was awarded a three-year €171,362 grant from the Netherlands Organisation for Scientific Research (NWO). PhD student is Ravi Selker.

24. In 2013, the “MaGW research talent” PhD project “Dynamic Adjustment of Response Caution in Perceptual Decision-Making” was awarded a three-year €168,735 grant from the Netherlands Organisation for Scientific Research (NWO). Main applicant is Hedderik van Rijn, PhD student is Udo Boehm.

23. The Socrates–Erasmus Intensive Programme “Quantitative Approaches to Psychological Processes: Modeling, Testing, Fitting” was awarded a grant from the Institute on Life Long Learning; €46,205 in 2012. This grant supported the organization of a 10-day seminar on mathematical psychology for students from 13 universities across Europe. Fellow applicants are Luca Stefanutti (University of Padova), Francis Tuerlinckx (Catholic University of Leuven), Martin Lages (University of Glasgow), Hans Colonius (University of Oldenburg), Istvan Hidegkuti. (University of Debrecen), Thomas Augustin (University of Graz), Miguel Garcia–Perez (University Complutense of Madrid), Adele Diederich (Jacobs University of Bremen), Mario Ferreira (University of Lisbon), Aire Raidvee (University of Tartu), Jürgen Heller (University of Tübingen), and Peter Hasto (University of Oulu).

22. In 2012, inaugural recipient of the Newcastle Psychology Research Visitor Fellowship, AUD\$5,000.

21. Partner investigator on the Australian Research Council AUD\$134,000 three-year project “Rapid Decisions: From Neuroscience to Complex Cognitions” (chief investigators: Scott Brown, Ami Eidels, and Andrew Heathcote; project duration: 2012–2014).

20. Partner investigator on the Australian Research Council AUD\$387,000 three-year project “Cognitive Flexibility from Adolescence to Senescence: Variability Associated with Cognitive Strategy and Brain Connectivity” (chief investigators: Frini Karayanidis, Rhoshel Lenroot, Mark Parsons, and Patricia Michie; project duration: 2012–2014).

19. In 2011, the project “Bayes or Bust: Sensible Hypothesis Tests for Social Scientists” was awarded a five-year €1,500,000 “consolidator” grant from the

European Research Council.

18. In 2011, the €23,000 Academy Colloquium proposal “New Insights from Model-Based Cognitive Neuroscience” was funded by the Royal Netherlands Academy of Arts and Sciences (KNAW). Fellow applicant is Birte Forstmann.

17. External advisor on the Engineering and Physical Sciences Research Council £1,858,354 project “Decision making in an unstable world” (investigators: Iain Gilchrist, Roland Baddeley, Rafal Bogacz, Simon Farrell, David Leslie, Casimir Ludwig, and John McNamara).

16. In 2011, the “MaGW open competition” PhD project “A dynamic and formal account of what people do before and after they make an error” was awarded a four-year €208,193 grant from the Netherlands Organisation for Scientific Research (NWO). Fellow applicants are Birte Forstmann, Sander Nieuwenhuis, and Han van der Maas.

15. Consultant on the NSF \$440,000 CAREER project “Cued recall: Theory and data” (PI Amy Criss, Syracuse University).

14. In 2010, the “ALW open competition” postdoc project “The neural basis of decision-making with multiple choice alternatives” was awarded a three-year €228,921 grant from the Netherlands Organisation for Scientific Research (NWO). Fellow applicants are Birte Forstmann, Sander Nieuwenhuis, Rafal Bogacz, Scott Brown, John Serences, and Han van der Maas.

13. In 2009, the project “Decision-making and adaptive control over impulsive actions” was awarded a €580,000 focal point (“Zwaartepunt”) grant from the University of Amsterdam. Fellow applicants include Richard Ridderinkhof, Frans van Winden, Damiaan Denys, and Birte Forstmann.

12. Co-applicant on the “ALW open competition” four-year €218,000 PhD grant proposal “The anatomical and neurochemical foundations of decision-making under time pressure”, funded by the Netherlands Organisation for Scientific Research (NWO). Fellow applicant and PI is Birte Forstmann.

11. The Socrates-Erasmus Intensive Programme “Formal Models and Quantitative Methods for Psychology” was awarded three grants from the Institute on Life Long Learning; €52,855 in 2008, €46,462 in 2009, and €46,017 in 2010. These grants supported the organization of 10-day seminars on mathematical psychology for students from 13 universities across Europe. Fellow applicants are Luca Stefanutti (University of Padova), Francis Tuerlinckx (Catholic University of Leuven), Martin Lages (University of Glasgow), Hans Colonius (University of Oldenburg), Akos Munnich (University of Debrecen), Thomas Augustin (University of Graz), Miguel Garcia-Perez (University Complutense of Madrid), Adele Diederich (Jacobs University of Bremen), Helena Bacelar Nicolau (University of Lisbon), Aire Raidvee (University of Tartu), Rolf Ulrich (University of Tübingen), and Peter Hasto (University of Oulu).

10. In 2007, the project “Diffusion Processes in the Brain” was awarded a one-year €28,220 “pilot” grant from the Netherlands Organisation for Scientific Research (NWO). Fellow applicants are Birte Forstmann, Scott Brown (University of Newcastle), and Jane Neumann (MPI Leipzig).
9. Consultant on the three-year \$430,000 Air Force Research Laboratory project “Modeling Exploration and Exploitation in Structured Environments” (PIs Michael D. Lee and Mark Steyvers, University of California at Irvine).
8. William K. Estes Early Career Award, Society for Mathematical Psychology. The annual award was presented at the 2007 Mathematical Psychology meeting in Irvine, USA.
7. In 2006, the project “Modeling the Relation Between Speed and Accuracy” was awarded a five-year €600,000 “Vidi” grant from the Netherlands Organisation for Scientific Research (NWO).
6. Paul Bertelson Early Career Award, The European Society for Cognitive Psychology (ESCoP). The bi-annual award was presented at the 2007 ESCoP conference in Marseille, France. “The Paul Bertelson award is designed to honor scientists at a relatively early stage of their scientific career, who have made an outstanding contribution to European Cognitive Psychology”.
5. Co-applicant on the “MaGW open competition” four-year €170,000 PhD grant proposal “Development of cognitive expertise in chess”, funded by the Netherlands Organisation for Scientific Research (NWO). Fellow applicants are Han van der Maas (PI) and Frenk van Harreveld.
4. In 2004, the project “Methods and Models for $1/f$ Noise in Human Cognition” was awarded a three-year €200,000 “Veni” grant from the Netherlands Organisation for Scientific Research (NWO).
3. Best Thesis Award, Dutch Psychonomic Society (NVP). The bi-annual award was presented at the 2003 NVP meeting in Egmond aan Zee, the Netherlands. The thesis is titled “Priming in Visual Word Recognition: Empirical Studies and Computational Models”.
2. Best Graduate Student Article Award, EPOS (i.e., a Dutch research school for experimental psychology). The award was presented at the 2000 EPOS meeting in Amsterdam, the Netherlands. The article is titled “Testing the counter model for perceptual identification: Effects of repetition priming and word frequency.” (Wagenmakers, Zeelenberg, & Raaijmakers, 2000).
1. Fulbright scholarship for an eight-month stay at Indiana University to work with Rich Shiffrin on the REM memory model (1999).

BOOKS

Wagenmakers, E.–J. (2020). *Bayesian thinking for toddlers*. Freely available at <https://psyarxiv.com/w5vbp/>. The book has been translated to Dutch (<https://psyarxiv.com/kqnv4>), German (<https://psyarxiv.com/38965>), Turkish (<https://psyarxiv.com/nmkyr>), and Chinese (<https://psyarxiv.com/grpwu>).

Wagenmakers, E.–J., Kucharský, Š., & the JASP Team (2020). *The JASP Data Library (1st ed.)*. Freely available at <https://psyarxiv.com/vr2u8/>.

Wixted, J. T. & Wagenmakers, E.–J. (Eds., 2018). *Stevens' handbook of experimental psychology and cognitive neuroscience (4th ed.): Volume 4: Methodology*. New York: Wiley.

Forstmann, B. U., & Wagenmakers, E.–J. (Eds., 2015) *An introduction to model-based cognitive neuroscience*. New York: Springer.

Lee, M. D., & Wagenmakers, E.–J. (2013). *Bayesian cognitive modeling: A practical course*. Cambridge University Press. See also www.bayesmodels.com. Japanese translation: 2017.

ARTICLES

281. Pfadt, J. M., van den Bergh, D., Sijtsma, K., & Wagenmakers, E.–J. (in press). A tutorial on Bayesian single-test reliability analysis with JASP. *Behavior Research Methods*.

280. Derks, K., de Swart, J., Wagenmakers, E.–J., Wille, J., & Wetzels, R. (2021). JASP for audit: Bayesian tools for the auditing practice. *Journal of Open Source Software*, 6, 2733.

279. Dablander, F., Huth, K., Gronau, Q. F., Etz, A., & Wagenmakers, E.–J. (in press). A puzzle of proportions: Two popular Bayesian tests can yield dramatically different conclusions. *Statistics in Medicine*.

278. Stefan, A. M., Schönbrodt, F. D, Evans, N. J., & Wagenmakers, E.–J. (in press). Efficiency in sequential testing: Comparing the sequential probability ratio test and the sequential Bayes factor test. *Behavior Research Methods*.

277. Aczel, B., Szaszi, B., Nilsson, G., van den Akker, O. R., Albers, C. J., van Assen, M. A. L. M., Bastiaansen, J. A., Benjamin, D., Boehm, U., Botvinik-Nezer, R., Bringmann, L. F., Busch, N. A., Caruyer, E., Cataldo, A. M., Cowan, N., Delios, A., van Dongen, N. N. N., Donkin, C., van Doorn, J. B., Dreber, A., Dutilh, G., Egan, G. F., Gernsbacher, M. A., Hoekstra, R., Hoffmann, S., Holzmeister, F., Huber, J., Johannesson, M., Jonas, K. J., Kindel, A. T., Kirchler, M., Kunkels, Y. K., Lindsay, D. S., Mangin, J.–F., Matzke, D., Munafò, M. R., Newell, B. R., Nosek, B. A., Poldrack, R. A., van Ravenzwaaij, D., Rieskamp, J., Salganik, M. J., Sarafoglou, A., Schonberg, T., Schweinsberg, M., Shanks, D., Silberzahn, R., Simons, D. J., Spellman, B. A., St–Jean, S., Starns, J. J., Uhlmann, E. L., Wicherts, J., & Wagenmakers, E.–J.

(2021). Guidance for multi-analyst studies. *eLife*, *10*:e72185.

276. Heck, D. W., Boehm, U., Böing-Messing, F., Bürkner, P.-C., Derks, K., Dienes, Z., Fu, Q., Gu, X., Karimova, D., Kiers, H., Klugkist, I., Kuiper, R. M., Lee, M. D., Leenders, R., Leplaa, H. J., Linde, M., Ly, A., Meijerink-Bosman, M., Moerbeek, M., Mulder, J., Palfi, B., Schönbrodt, F., Tendeiro, J., van den Bergh, D., van Lissa, C. J., van Ravenzwaaij, D., Vanpaemel, W., Wagenmakers, E.-J., Williams, D. R., Zondervan-Zwijnenburg, M., & Hoijtink, H. (in press). A review of applications of the Bayes factor in psychological research. *Psychological Methods*.

275. Manning, C., Hassall, C. D., Hunt, L. T., Norcia, A. M., Wagenmakers, E.-J., Snowling, M. J., Scerif, G., & Evans, N. J. (in press). Visual motion and decision-making in dyslexia: Evidence of reduced accumulation of sensory evidence and related neural dynamics. *Journal of Neuroscience*.

274. Wagenmakers, E.-J., Sarafoglou, A., Aarts, S., Albers, C., Algermissen, J., Bahnik, S., van Dongen, N., Hoekstra, R., Moreau, D., van Ravenzwaaij, D., Sluga, A., Stanke, F., Tendeiro, J., & Aczel, B. (2021). Seven steps toward more transparency in statistical practice. *Nature Human Behaviour*, *5*, 1473–1480.

273. Bartoš, F., Gronau, Q. F., Timmers, B., Otte, W. M., Ly, A., & Wagenmakers, E.-J. (2021). Bayesian model-averaged meta-analysis in medicine. *Statistics in Medicine*, *40*, 6743–6761.

272. Shiffrin, R. M., Matzke, D., Crystal, J. D., Wagenmakers, E.-J., Chandramouli, S. H., Vandekerckhove, J., Zorzi, M., Morey, R. D., & Murphy, M. C. (2021). Extraordinary claims, extraordinary evidence? A discussion. *Learning & Behavior*, *49*, 265–275.

271. Temp, A. G. M., Lutz, M. W., Trepel, D., Tang, Y., Wagenmakers, E.-J., Khachaturian, A. S., & Teipel, S. (2021). How Bayesian statistics may help answer some of the controversial questions in clinical research on Alzheimer's disease. *Alzheimer's & Dementia*, *17*, 917–919.

270. van Doorn, J., Aust, F., Haaf, J., Stefan, A., & Wagenmakers, E.-J. (in press). Bayes factors for mixed models. *Computational Brain & Behavior*.

269. Derks, K., de Swart, J., van Batenburg, P., Wagenmakers, E.-J., & Wetzels, R. (in press). Priors in a Bayesian audit: How integration of existing information into the prior distribution can improve audit transparency and efficiency. *International Journal of Auditing*.

268. Gronau, Q. F., Heck, D., Berkhout, S., Haaf, J., & Wagenmakers, E.-J. (in press). A primer on Bayesian model-averaged meta-analysis. *Advances in Methods and Practices in Psychological Science*.

267. Ly, A., & Wagenmakers, E.-J. (in press). A critical evaluation of the

FBST *ev* for Bayesian hypothesis testing. *Computational Brain & Behavior*.

266. van Ravenzwaaij, D., & Wagenmakers, E.-J. (in press). Advantages masquerading as ‘issues’ in Bayesian hypothesis testing: A commentary on Tendeiro and Kiers (2019). *Psychological Methods*.

265. Sarafoglou, A., Haaf, J. M., Ly, A., Gronau, Q. F., Wagenmakers, E.-J., & Marsman, M. (in press). Evaluating multinomial order restrictions with bridge sampling. *Psychological Methods*.

264. Mulder, J., Gu, X., Olsson-Collentine, A., Tomarken, A., Böing-Messing, F., Hoijsink, H., Meijerink, M., Williams, D. R., Menke, J., Fox, J.-P., Rosseel, Y., Wagenmakers, E.-J., & van Lissa, C. (2021). BFpack: Flexible Bayes factor testing of scientific theories in R. *Journal of Statistical Software*, *100*, 1–63.

263. Maier, M., Bartoš, F., & Wagenmakers, E.-J. (2020). Robust Bayesian meta-analysis: Addressing publication bias with model-averaging. *Psychological Methods*.

262. Wagenmakers, E.-J. (2021). Defiant denial is self-defeating. *Psychological Inquiry*, *32*, 12–16.

261. Linde, M., Tendeiro, J. N., Selker, R., Wagenmakers, E.-J., & van Ravenzwaaij, D. (in press). Decisions about equivalence: A comparison of TOST, HDI–ROPE, and the Bayes factor. *Psychological Methods*.

260. Pfadt, J. M., van den Bergh, D., Sijtsma, K., Moshagen, M., & Wagenmakers, E.-J. (in press). Bayesian estimation of single–test reliability coefficients. *Multivariate Behavioral Research*.

259. van den Bergh, D., Clyde, M. A., Raj, A., de Jong, T., Gronau, Q. F., Marsman, M., Ly, A., & Wagenmakers, E.-J. (2021). A tutorial on Bayesian multi-model linear regression with BAS and JASP. *Behavior Research Methods*, *53*, 2351–2371.

258. van Doorn, J., van den Bergh, D., Dablander, F., van Dongen, N., Derks, K., Evans, N., Gronau, Q. F., Haaf, J. M., Kunisato, Y., Ly, A., Marsman, M., Sarafoglou, A., Stefan, A., & Wagenmakers, E.-J. (2021). Strong public claims may not reflect researchers’ private convictions. *Significance*, *18*, 44–45.

257. Verschuere, B., De Schryver, M., van den Bergh, D., Wagenmakers, E.-J., & Meijer, E. (2021). Are dishonest politicians more likely to be re-elected? A Bayesian view. *Proceedings of the National Academy of Sciences*, *118*, e2022718118.

256. Hulme, O. J., Wagenmakers, E.-J., Damkier, P., Madelung, C. F., Siebner, H. R., Helweg–Larsen, J., Gronau, Q. F., Benfield, T., & Madsen, K. H. (2021). Reply to Gautret et al. 2020: A Bayesian reanalysis of the effects of hydrox-

ychloroquine and azithromycin on viral carriage in patients with COVID-19. *PLoS ONE*, *16*, e0245048.

255. Gronau, Q. F., Raj K. N., A., & Wagenmakers, E.-J. (2021). Informed Bayesian inference for the A/B test. *Journal of Statistical Software*, *100*, 1–39.

254. Vohs, K. D., Schmeichel, B. J., Lohmann, S., Gronau, Q. F., Finley, A., ..., Wagenmakers, E.-J., & Albarracín, D. (2021). A multi-site preregistered paradigmatic test of the ego depletion effect. *Psychological Science*, *32*, 1566–1581.

253. Erdfelder, E., Hu, X., Rouder, J. N., & Wagenmakers, E.-J. (2020). Cognitive Psychometrics: The scientific legacy of William H. Batchelder (1940–2018). *Journal of Mathematical Psychology*, *99*, 102468. This editorial introduces two special issues honoring the work of Bill Batchelder: ‘Recent contributions to MPT modeling’ and ‘Recent contributions to CCT modeling and beyond’.

252. van den Bergh, D., Haaf, J. M., Ly, A., Rouder, J. N., & Wagenmakers, E.-J. (in press). A cautionary note on estimating effect size. *Advances in Methods and Practices in Psychological Science*.

INVITED
PRESENTATIONS

135. Wagenmakers, E.-J. (2021). An introduction to quality control tools in JASP. Invited online presentation for *SKF*, December 2021.
134. Wagenmakers, E.-J. (2021). Transparency in statistics. Invited online presentation for the *School of Psychology, University of Sussex*, UK, November 2021.
133. Wagenmakers, E.-J. (2021). Truth and simplicity. Plenary lecture for the workshop *Nothing but the Truth*, University of Groningen, Groningen, The Netherlands, November 2021.

132. Wagenmakers, E.–J. (2021). Seven steps to statistical transparency. Invited online presentation for the *Department of Banking and Finance, University of Innsbruck*, Innsbruck, Austria, October 2021.
131. Wagenmakers, E.–J. (2021). Jeffreys’s paradox and the $3p\sqrt{n}$ rule. Invited online presentation for the *Department of Statistical Science, Università Cattolica del Sacro Cuore*, Milan, Italy, October 2021.
130. Wagenmakers, E.–J. (2021). Bayesian benefits. Keynote debate (with Daniël Lakens) for the workshop *Perspectives on scientific error: Parsing history, comparing viewpoints, and assessing preventative measures*, Lorentz Center, Leiden, The Netherlands, August 2021.
129. Wagenmakers, E.–J. (2021). Bayesian inference without tears. Invited presentation for the *Rotterdam RIOT Science Club*, June 2021.
128. Wagenmakers, E.–J. (2021). Tips and tricks for teaching Bayesian statistics. Invited presentation for the online conference *Teaching Statistics in Psychology*, May 2021.
127. Wagenmakers, E.–J. (2021). Bayesian inference without tears. Invited presentation for the *Max Planck Institute for Human Cognitive and Brain Sciences, Department of Neurology*, Leipzig, Germany, March 2021.
126. Wagenmakers, E.–J. (2021). Bayesian parameter estimation. Keynote presentation for the *Winter School of Mathematical Psychology*, Shahid Beheshti University, Tehran, Iran, February 2021.
125. Wagenmakers, E.–J. (2021). Bayesian inference without tears. Invited presentation for the *Department of Psychology, University of Duisburg-Essen*, Germany, February 2021.
124. Wagenmakers, E.–J. (2020). Bayesian inference for everything. Invited presentation for the Deloitte AI team, December 2020.
123. Wagenmakers, E.–J. (2020). Problems, and Promises of Preregistration. Keynote lecture for the webinar that launched the *Preregistration Standards for Psychology*, a joint initiative from the American Psychological Association, the British Psychological Society, the German Psychological Society, the Leibniz Institute for Psychology, and the Center for Open Science.
122. Wagenmakers, E.–J. (2020). Pitfalls in data analysis. Invited presentation for the *Analysts Cafe*, PostNL, The Hague, The Netherlands, March 2020.
121. Wagenmakers, E.–J. (2020). The replication Bayes factor and beyond. Invited presentation for the workshop *Design and Analysis of Replication Studies*, organized by The Center of Reproducibility Science (CRS) in Zürich, Zürich, Switzerland, January 2020.

120. Wagenmakers, E.-J. (2019). Scientific transparency. Keynote lecture for the *PhD event at the Faculty of Electrical Engineering, Mathematics and Computer Science of the Delft University of Technology*, Delft, The Netherlands, November 2019.
119. Wagenmakers, E.-J. (2019). The proof of the pudding: Frequentist vs. Bayesian inference in practice. Invited lecture for the symposium *Open Statistics: Methods and Thinking in Psychological Research*, Cesena, Italy, September 2019.
118. Wagenmakers, E.-J. (2019). Bayesian multi-model inference for practical and impractical problems. Keynote lecture for the *84th Annual Meeting of the Psychometric Society*, Santiago, Chili, July 2019.
117. Wagenmakers, E.-J. (2019). Bayesian benefits for the pragmatic biostatistician. Invited talk at the *10th Applied Bayesian Biostatistics Conference*, Lyon, France, May 2019.
116. Wagenmakers, E.-J. (2019). Met Bayesiaanse statistiek het kaf van het koren scheiden [Using Bayesian statistics to separate the wheat from the chaff]. Invited presentation for the *Limperg Symposium Statistical Auditing 2019*, Vrije Universiteit, Amsterdam, The Netherlands, May 2019.
115. Wagenmakers, E.-J. (2018). Bayesian inference without tears. Invited lecture at the one-week workshop “Masterclass in Bayesian Statistics” at the Centre International de Rencontres Mathématiques (CIRM), Marseille, France, October 2018.
114. Wagenmakers, E.-J. (2018). Bayesian advantages for the pragmatic researcher. Keynote lecture for the *51th Kongress der Deutschen Gesellschaft für Psychologie*, Frankfurt, Germany, September 2018.
113. Wagenmakers, E.-J. (2018). Tip of the iceberg? Revealing hidden uncertainty in cognitive modeling. Keynote lecture for the *2nd h-MPT Network Meeting*, Mannheim, Germany, April 2018.
112. Wagenmakers, E.-J. (2018). Bayesian inference with JASP. Invited presentation for the *Netherlands Institute for Neuroscience (NIN)*, Amsterdam, The Netherlands, April 2018.
111. Wagenmakers, E.-J. (2018). The case for radical transparency in statistical reporting. Invited presentation for the *James Coleman Symposium*, Utrecht University, The Netherlands, April 2018.
110. Wagenmakers, E.-J. (2018). Bayesian statistics using JASP. Invited presentation for the *Science Transmission meeting* at the Department of Human Movement Sciences of the Vrije Universiteit, Amsterdam, The Netherlands, April 2018.

109. Wagenmakers, E.-J. (2018). The case for radical transparency in statistical reporting. Invited presentation for the *Replication and Reproducibility Event II: Moving Psychological Science Forward* organised by the *British Psychological Society*, London, UK, January 2018.
108. Wagenmakers, E.-J., & de Jong, J. P. (2017). KNAW report: Replication studies. Invited web-based briefing for the NAS (The National Academies of Sciences, Engineering, and Medicine) committee on “*Reproducibility and Repliability in Science*”.
107. Wagenmakers, E.-J. (2017). Barbecue chicken alert! Invited presentation for the plenary discussion session (with Simine Vazire and Daniel Lakens) at the *Annual Meeting of the Berkeley Initiative for Transparency in the Social Sciences* (BITSS), Berkeley, USA, December 2017.
106. Wagenmakers, E.-J. (2017). An introduction to JASP. Invited presentation for the annual meeting of *ONWAR, the Graduate School Neurosciences Amsterdam Rotterdam*, Zeist, The Netherlands, November 2017.
106. Wagenmakers, E.-J. (2017). Hidden pseudoscience: Ailment, diagnosis, and cure. Invited presentation for *Amsterdam Skeptics in the Pub*, Amsterdam, The Netherlands, November 2017.
105. Wagenmakers, E.-J. (2017). The why and how of testing a point-null hypothesis within a Bayesian framework. Invited presentation for the *Seminar Series in Probability and Statistics*, TU Delft, The Netherlands, October 2017.
104. Wagenmakers, E.-J. (2017). Redefine statistical significance with JASP. Invited webinar presentation for *IMC: Roundtable on Reproducibility and an Increased Significance Threshold*, October 2017.
103. Wagenmakers, E.-J. (2017). The case for radical transparency in statistical reporting. Invited presentation for the *ASA Symposium on Statistical Inference*, Bethesda, USA, October 2017.
102. Wagenmakers, E.-J. (2017). Bayesian statistics without tears. Invited presentation for the *Oxford Reproducibility School*, Oxford, UK, September 2017.
101. Wagenmakers, E.-J. (2017). JASP/Evidence. Two invited presentations for the BITSS workshop “*Research Transparency and Reproducibility Training (RT2)*”, London, UK, September 2017.
100. Wagenmakers, E.-J. (2017). History and statistical foundation of pre-registration. Invited presentation for the workshop “*Perspectives on scientific error*”, Tilburg, the Netherlands, June 2017.
99. Wagenmakers, E.-J., van Kesteren, E.-J., & Beekman, V. (2017). The maximum diagnosticity of the p -value. Invited presentation for the workshop

“*Is there a future without null hypothesis significance testing?*”, Amstelveen, the Netherlands, June 2017.

98. Wagenmakers, E.-J. (2017). The methodological metamorphosis of neuroscience. Keynote lecture for the *6th Berlin Winter School on Ethics and Neuroscience*, Berlin, Germany, February 2017.

97. Wagenmakers, E.-J. (2016). A discussion on the TOP guidelines. Invited presentation for *Unilever R&D*, Vlaardingen, The Netherlands, October 2016.

96. Wagenmakers, E.-J. (2016). Bayesian inference with JASP. Invited presentation for the *Department of Statistical Science, Universita Cattolica del Sacro Cuore*, Milan, Italy, September 2016.

95. Wagenmakers, E.-J. (2016). Bayesian analyses with JASP: A fresh way to do statistics. Plenary lecture for the *Behavioural Science Institute (BSI) day*, Radboud University, Nijmegen, The Netherlands, June 2016.

94. Böhm, U., Gronau, Q. F., Matzke, D., Singmann, H., Sarafoglou, A., Vandekerckhove, J., Ly, A., Steingroever, H., Marsman, M., Leslie, D., Forster, J. & Wagenmakers, E.-J. (2016). Bayes factors for the diffusion model. Invited presentation for the workshop “*Sequential sampling models of decision making*”, Emmetten, Switzerland, May 2016.

93. Wagenmakers, E.-J. (2016). Bayesian benefits. Presentation for the *Young Statisticians Science Café*, Utrecht, the Netherlands, April 2016.

92. Wagenmakers, E.-J. (2016). Bayesian analyses with JASP: A fresh way to do statistics. Presentation in the *Statistics Seminar Series of the Athens University of Economics and Business*, Athens, Greece, April 2016.

91. Wagenmakers, E.-J. (2016). Transparent research practices: Past roots, present revolution, and future prospects. Keynote presentation for the *58th Conference of Experimental Psychologists (TeaP)*, Heidelberg, Germany, March 2016.

90. Wagenmakers, E.-J. (2016). Bayesian benefits for the pragmatic researcher. Keynote presentation for *Bayes at Lund*, Lund, Sweden, February 2016.

89. Wagenmakers, E.-J. (2016). Pre-conference tutorial on Bayesian inference for *Bayes at Lund*, Lund, Sweden, February 2016.

88. Wagenmakers, E.-J. (2016). Bayesian benefits for the pragmatic researcher. Invited presentation for the *Department of Psychology, University of Gothenburg*, Gothenburg, Sweden, February 2016.

87. Wagenmakers, E.-J. (2016). A predictive perspective on Bayesian inference. Invited presentation for the *Department of Mathematics, University of*

Gothenburg, Gothenburg, Sweden, February 2016.

86. Wagenmakers, E.-J. (2016). Bayesian benefits for the pragmatic researcher. Invited presentation for the workshop “*Bayesian and frequentist approaches to inferential statistics*” at the *Centre for Interdisciplinary Research of the University of Bielefeld*, Bielefeld, Germany, January 2016.

85. Wagenmakers, E.-J. (2016). Bayesian benefits for the pragmatic researcher. Invited colloquium for the *Otto Creutzfeldt Center for Cognitive and Behavioral Neuroscience at the University of Münster*, Münster, Germany, January 2016.

84. Wagenmakers, E.-J. (2015). The revolution in psychological science. Keynote presentation for the *15th NVP Winter Conference on Cognition, Brain and Behaviour*, Egmond aan Zee, the Netherlands, December 2015.

83. Wagenmakers, E.-J. (2015). JASP: Statistical inference without tears. Invited lecture for the *Department of Methods and Techniques at Utrecht University*, Utrecht, the Netherlands, December 2015.

82. Wagenmakers, E.-J. (2015). Subjective reflections on the work of Bill Batchelder. Invited presentation for the workshop “*Cultural Consensus Theory, Multinomial Processing Trees, and Cognitive Psychometrics: Celebrating Bill Batchelder’s 75th Year*”, University of California at Irvine, USA, November 2015.

81. Wagenmakers, E.-J. (2015). Preregistration and Registered Reports. Invited presentation for the workshop “*Improving Inference in Evolutionary Biology and Ecology*”, Charlottesville, USA, November 2015.

80. Wagenmakers, E.-J. (2015). JASP: Statistical inference without tears. Invited lecture for the *Helmholtz Institute*, Utrecht, the Netherlands, November 2015.

79. Wagenmakers, E.-J. (2015). Bayesian analyses with JASP: A fresh way to do statistics. Invited presentation for the *Psychology Department at the Free University of Brussels*, Brussels, Belgium, October 2015.

78. Wagenmakers, E.-J. (2015). Bayesian analyses with JASP: A fresh way to do statistics. Invited presentation for the *Psychology Department at the University of Cardiff*, Cardiff, UK, October 2015.

77. Wagenmakers, E.-J. (2015). Open science with JASP. Invited presentation for the *Research Away day of the Psychology Department at the University of Bristol*, Bristol, UK, September 2015.

76. Wagenmakers, E.-J. (2015). A predictive perspective on Bayesian inference. Keynote address for *46th meeting of the European Mathematical Psychology Group*, Padova, Italy, September 2015.

75. Wagenmakers, E.-J. (2015). JASP: A fresh way to do Bayesian hypothesis testing. Invited presentation for the *30th IOPS Summer Conference*, Utrecht, The Netherlands, June 2015.
74. Wagenmakers, E.-J. (2015). Bayesian analyses with JASP: A fresh way to do statistics. Invited presentation for the *Donders Institute for Brain, Cognition and Behavior*, Nijmegen, The Netherlands, June 2015.
73. Wagenmakers, E.-J. (2015). Bayesian analyses with JASP: A fresh way to do statistics. Invited presentation for the *Psychology Department at the University of Freiburg*, Freiburg, Germany, June 2015.
72. Wagenmakers, E.-J. (2015). Bayesian analyses with JASP: A fresh way to do statistics. Invited presentation for the Chaucer club seminar series, *Cognition & Brain Sciences Unit, Cambridge University*, Cambridge, UK, May 2015.
71. Wagenmakers, E.-J. (2015). Bayesian hypothesis testing: Why and how? Invited presentation for the *Psychology Department at the University of Zürich*, Zürich, Switzerland, May 2015.
70. Wagenmakers, E.-J. (2015). Bayesian analyses with JASP: A fresh way to do statistics. Invited presentation for the *Psychology Department at the University of Southampton*, Southampton, UK, April 2015.
69. Wagenmakers, E.-J. (2014). Guidelines for preregistration. Invited presentation for the workshop “*Standards for Promoting Reproducible Research in the Social-Behavioral Sciences*”, Charlottesville, USA, November 2014.
68. Wagenmakers, E.-J. (2014). JASP: A fresh way to do statistics. Invited presentation for the *Psychology Department at Tilburg University*, Tilburg, The Netherlands, October 2014.
67. Wagenmakers, E.-J. (2014). The crisis of confidence in psychology. Invited presentation for the *Psychology Department at the University of Leuven*, Leuven, Belgium, September 2014.
66. Wagenmakers, E.-J. (2014). The pros and cons of study preregistration. Invited lecture for the NWO Symposium *Improving Scientific Practice*, Amsterdam, The Netherlands, September 2014.
65. Wagenmakers, E.-J. (2014). Reinforcement learning and the Iowa gambling task. Invited presentation for the conference *Decision Making Bristol 2014*, University of Bristol, Bristol, UK, September 2014. Work done by Helen Steingroever.
64. Wagenmakers, E.-J. (2014). Statistical pitfalls in cognitive neuroscience. Keynote presentation for the CRISM Workshop *Statistical Challenges in Neuroscience*, The University of Warwick, UK, September 2014.

63. Wagenmakers, E.-J. (2014). Theory and practice of Bayesian inference. One-day workshop for the conference “*Evolution of Innovation*”, Cambridge University, Cambridge, UK, June 2014.
62. Wagenmakers, E.-J. (2014). Progress through struggle in psychological science. Invited presentation in the symposium “The Replication Revolution: One Year On” at the 26th Annual Convention of the Association for Psychological Science, San Francisco, USA, May 2014.
61. Wagenmakers, E.-J. (2014). An agenda for responsible research. Invited presentation for the Spring Statistics Workshop *Reliability and Replication in Psychological Science*, Princeton University, Princeton, USA, April 2014.
60. Wagenmakers, E.-J. (2013). A Bayesian perspective on replication research. Invited presentation for the *Psychology Department at the University of Leuven*, Leuven, Belgium, December 2013.
59. Wagenmakers, E.-J. (2013). The excitement of conducting a replication study. Half-day workshop for the BSI PhD day, Nijmegen, The Netherlands, October 2013.
58. Wagenmakers, E.-J. (2013). Statistical pitfalls in cognitive neuroscience. Invited presentation for the *Artificial Intelligence Group at the University of Groningen*, Groningen, The Netherlands, September 2013.
57. Wagenmakers, E.-J. (2013). The excitement of conducting a replication study. Invited presentation for the APS/ESCoP symposium “*Building a Better Psychological Science: Good Data Practices and Replicability*”, Budapest, Hungary, August 2013.
56. Wagenmakers, E.-J. (2013). The future of psychometrics: An outsider’s perspective. Invited talk at the *78th Annual Meeting of the Psychometric Society*, Arnhem, The Netherlands, July 2013.
55. Wagenmakers, E.-J. (2013). Fundamentals of Bayesian inference. Half-day tutorial workshop for the *Psychology Department at Hamburg University*, Hamburg, Germany, June 2013.
54. Wagenmakers, E.-J. (2013). A Bayesian perspective on the “crisis of confidence” in psychological science. Invited presentation for the *Psychology Department at Hamburg University*, Hamburg, Germany, June 2013.
53. Wagenmakers, E.-J. (2013). On the diagnosticity of a p value. Invited presentation for the *Psychology Department at Ghent University*, Ghent, Belgium, May 2013.
52. Wagenmakers, E.-J. (2013). A Bayesian perspective on the “crisis of confidence” in psychological science. Invited presentation for the *Fakultät für Lin-*

guistik und Literaturwissenschaft at the University of Bielefeld, Bielefeld, Germany, April 2013.

51. Wagenmakers, E.-J. (2013). Model-based cognitive neuroscience. Invited presentation for the *Department of Artificial Intelligence at Radboud University, Nijmegen, The Netherlands, April 2013.*

50. Wagenmakers, E.-J. (2013). Bayesian hypothesis testing in practice. Invited presentation for the *Cognitive Psychology Unit at the Free University, Amsterdam, The Netherlands, March 2013.*

49. Wagenmakers, E.-J. (2012). Common sense expressed in numbers. Invited presentation for the mini-symposium “*Reasoning with Uncertainty: The Bayesian Perspective*” at the Stenden University of Applied Sciences, Leeuwarden, The Netherlands, November 2012.

48. Wagenmakers, E.-J. (2012). An agenda for confirmatory research. Invited presentation for the *Psychology Department at Tilburg University, Tilburg, The Netherlands, September 2012.*

47. Wagenmakers, E.-J. (2012). Comparison of reinforcement learning models using parameter space partitioning. Invited presentation for the workshop “*Testing Theories of Choice*” at the *Max Planck Institute for Human Development, Berlin, Germany, July 2012.* Work done by Helen Steingroever.

46. Wagenmakers, E.-J. (2012). Bias in speeded decision making. Invited presentation for the *Psychology Department at the University of Bristol, Bristol, UK, June 2012.*

45. Wagenmakers, E.-J. (2012). A Bayesian correlation test, illustrated with events from the life of Rich Shiffrin. Invited presentation for the Shiffrin Festschrift at the *Psychology Department of Indiana University, Bloomington, USA, May 2012.*

44. Wagenmakers, E.-J. (2012). Not so fast! Premature conclusions in cognitive neuroscience and beyond. Bernstein lecture, *Bernstein Center for Computational Neuroscience Tübingen, Tübingen, Germany, April 2012.*

43. Wagenmakers, E.-J. (2012). Bayesian sequential hypothesis testing of strictly confirmatory research designs. Invited presentation for the *Psychology Department at Purdue, Lafayette, USA, April 2012.*

42. Wagenmakers, E.-J. (2012). Not so fast! Premature conclusions in cognitive neuroscience and beyond. Invited presentation for the *School of Psychology at the University of Glasgow, Glasgow, UK, March 2012.*

41. Wagenmakers, E.-J. (2012). Not so fast! Premature conclusions in cognitive neuroscience and beyond. Invited presentation in the *Cognitive Neuroimag-*

ing seminar series at the University of Edinburgh, Edinburgh, UK, March 2012.

40. Wagenmakers, E.-J. (2012). Healthy people perform poorly on the Iowa Gambling Task. Invited presentation in the *London Judgment and Decision Making seminar series at University College London*, London, UK, March 2012. Work done by Helen Steingroever.

39. Wagenmakers, E.-J. (2012). Not so fast! Premature conclusions in cognitive neuroscience and beyond. Invited presentation in the *Cognitive, Perceptual and Brain Sciences seminar series at University College London*, London, UK, March 2012.

38. Wagenmakers, E.-J. (2012). The future of psychological science. Invited presentation for the KLI workshop “Should we worry about our methodology? Current concerns in experimental research and how to deal with them”, Amsterdam, The Netherlands, March 2012.

37. Wagenmakers, E.-J. (2012). Can people look into the future, or: What is wrong with psychological science? Invited presentation for the *School of Psychology at the University of New South Wales*, Sydney, Australia, February 2012.

36. Wagenmakers, E.-J. (2011). Worth no more than a bare mention? An objective Bayesian analysis of the evidential impact of the p-value. Invited presentation for the lecture series on “*Null Hypothesis Testing in the Social Sciences*” organized by the *Social Sciences Division of the Netherlands Statistical Society*, Amsterdam, The Netherlands, December 2011.

35. Wagenmakers, E.-J. (2011). Bayesian sequential hypothesis testing of strictly confirmatory research designs. Invited presentation for the *Psychology Department at Essex University*, Essex, UK, December 2011.

34. Wagenmakers, E.-J. (2011). Unexpected participant heterogeneity in the Iowa Gambling Task. Invited presentation for the workshop “*Structural Modeling of Heterogeneity in Discrete Choice Under Risk and Uncertainty*” at the *Center for the Economic Analysis of Risk (CEAR)* at Georgia State University, Atlanta, USA, December 2011. Work done by Helen Steingroever.

33. Wagenmakers, E.-J. (2011). The hidden message behind extrasensory perception. Invited presentation for the *Psychology Department at the Ludwig-Maximilian Universität*, Munich, Germany, June 2011.

32. Wagenmakers, E.-J. (2011). Why Bayesian statistics is right, and everything else is wrong. Invited presentation for the *Psychology Department at Uppsala University*, Uppsala, Sweden, May 2011.

31. Wagenmakers, E.-J. (2011). A Bayesian parametric approach for the estimation of stop-signal reaction time distributions. Invited presentation for

the *Center for Integrative and Cognitive Neuroscience* (CICN) at Vanderbilt University, Nashville, USA, April 2011. Work done by Dora Matzke.

30. Wagenmakers, E.-J. (2011). Validity and fit in ACT-R. Invited presentation for the ACT-R Spring School, Groningen, the Netherlands, April 2011.

29. Wagenmakers, E.-J. (2011). Default Bayesian t-tests. Invited presentation for the workshop “*All models are wrong...*”, Groningen, the Netherlands, March 2011.

28. Wagenmakers, E.-J. (2010). Bayesian model selection in sensometrics. Plenary presentation for the *10th Conference on Sensometrics*, Rotterdam, the Netherlands, July 2010.

27. Wagenmakers, E.-J. (2010). Bayesian parameter estimation and model selection. Half-day workshop for the *ESCoP Summer School in Computational and Mathematical Modeling of Cognition*, Mallnitz, Austria, July 2010.

26. Wagenmakers, E.-J., & Wetzels, R. (2010). A pessimistic perspective on psychological science? Invited presentation for the *Psychology Department at the University of Heidelberg*, Heidelberg, Germany, May 2010.

25. Wagenmakers, E.-J. (2010). Bayesian graphical modeling using WinBUGS. Half-day workshop at the *University of Western Australia*, Perth, Australia, January 2010.

24. Wagenmakers, E.-J. (2009). What is Bayesian inference? Why be Bayesian? Invited presentation for the *Fakultät für Linguistik und Literaturwissenschaft at the University of Bielefeld*, Bielefeld, Germany, December 2009.

23. Wagenmakers, E.-J. (2009). Bayesian hypothesis testing without tears. Invited Heymans colloquium for the *Psychology Department at the University of Groningen*, Groningen, the Netherlands, November 2009.

22. Wagenmakers, E.-J. (2008). Doing what Id wants: The Savage-Dickey approach to Bayesian hypothesis testing. Invited presentation for the *18th IOPS Winter Conference*, Oegstgeest, the Netherlands, December 2008.

21. Wagenmakers, E.-J. (2008). Doing what Id wants: Bayesian hypothesis testing. Invited presentation for the *Psychology Unit at the University of Tübingen*, Tübingen, Germany, October 2008.

20. Wagenmakers, E.-J. (2008). Decision making under time pressure: A study combining mathematical modeling and functional neuroimaging. Invited joint presentation together with Birte Forstmann for the *Institute for Mathematical Behavioral Sciences* (IMBS) at the University of California at Irvine, USA, April 2008.

19. Wagenmakers, E.-J. (2007). Pervasive problems of p -values. Invited presentation for the *Cognitive Psychology Unit at the Free University*, Amsterdam, The Netherlands, December 2007.
18. Wagenmakers, E.-J. (2007). A diffusion model account of the worst performance rule, the law of practice, and the accessory stimulus effect. Invited presentation for the *Max Planck Institute for Human Development*, Berlin, Germany, November 2007.
17. Wagenmakers, E.-J. (2007). Current developments in the modeling of response times and accuracy using the Ratcliff diffusion model. Keynote presentation for the *15th Conference of the European Society for Cognitive Psychology (ESCoP)*, Marseille, France, August 2007.
16. Wagenmakers, E.-J. (2007). Current developments in the modeling of response times and accuracy using the Ratcliff diffusion model. Keynote presentation for the *40th annual meeting of the Society for Mathematical Psychology*, Costa Mesa, USA, July 2007.
15. Wagenmakers, E.-J., Lee, M. D., & Iverson, G. (2007). Bayesian versus frequentist inference. Invited presentation for the workshop “*Null, Alternative and Informative Hypotheses*”, Utrecht, The Netherlands, July 2007.
14. Wagenmakers, E.-J. (2007). Pervasive problems of p -values. Invited presentation for the *Psychology Department at the Erasmus University*, Rotterdam, The Netherlands, June 2007.
13. Wagenmakers, E.-J. (2007). Current developments in the modeling of response times and accuracy using the Ratcliff diffusion model. Invited presentation for the *Institute for Mathematical Behavioral Sciences (IMBS)* at the University of California at Irvine, USA, April 2007.
12. Wagenmakers, E.-J. (2007). Pervasive problems of p -values. Invited presentation for the *Psychology Department at the University of Newcastle*, Newcastle, Australia, February 2007.
11. Wagenmakers, E.-J. (2006). Practical methods for model selection: Cross-validation, bootstrap, and prequential approaches. Invited presentation for the Air Force Research Laboratory workshop “*Model Comparison and Model Validation*”, Syracuse, USA, September 2006.
10. Wagenmakers, E.-J., van der Maas, H., & Grasman, R. (2006). An EZ-diffusion model for response time and response accuracy: Extensions. Invited presentation for the workshop “*Diffusion Models in Psychology*”, Freiburg, Germany, February 2006.
9. Wagenmakers, E.-J. (2006). A statistical perspective on the peculiar properties and pervasive problems of p -values. Invited presentation for the *Institute*

for *Mathematical Behavioral Sciences* (IMBS) at the University of California at Irvine, USA, February 2006.

8. Wagenmakers, E.-J. (2005). Peculiar problems with p -values. Invited presentation for the *Psychology Department at the University of Bristol*, Bristol, UK, October 2005.

7. Wagenmakers, E.-J. (2005). Consequences of the likelihood principle for the statistical analysis of psychological experiments. Invited presentation for the 2nd *Adelaide Mental Life* conference, Adelaide, Australia, June 2005.

6. Wagenmakers, E.-J. (2005). Peculiar problems with p -values. Invited presentation for the *Psychology Department at CMU* and the *Psychology Department at Leuven*, both April 2005.

5. Wagenmakers, E.-J. (2003). Priming in visual word recognition: Empirical studies and computational models. Keynote presentation for the *bi-annual NVP conference*, Egmond, the Netherlands, December 2003.

4. Wagenmakers, E.-J., van der Maas, H., Molenaar, P., & Hartelman, P. (2003). Generalized stochastic catastrophe theory: Achieving invariance under transformation of the measurement scale. Invited presentation for the *EPOS annual meeting*, Amsterdam, the Netherlands, November 2003.

3. Wagenmakers, E.-J. (2003). Bias and enhanced discriminability in perceptual identification. Invited presentation for the *Psychology Department at UCLA*, Los Angeles, USA, March 2003.

2. Wagenmakers, E.-J. (2003). Models of information integration. Invited presentation for the *Psychology Department at Georgia Tech*, Atlanta, USA, January 2003.

1. Wagenmakers, E.-J. (2002). Model mimicry, information integration, and the bootstrap. Invited presentation for the *Quantitative Psychology weekly meeting at Ohio State University*, Columbus, USA, October 2002.

COMMITTEE WORK

- *2018-current*. Member of the “Dagelijks Bestuur” (DB; executive committee) of the Psychological Methods Unit of the Department of Psychology at the University of Amsterdam.
- *2007–2017*. Member of the Revesz committee for the Psychology Department at the University of Amsterdam. The Revesz committee is responsible for the logistics surrounding the Revesz honorary professorships.
- *2012–2017*. Member of the Academic Advisory Board (“wetenschappelijke adviesraad, WAR”) for the Department of Psychology at the University of Amsterdam.
- *2006–2017*. Member of the committee for the Research Master in Psy-

chology at the University of Amsterdam.

- 2009–2015. Member of the executive board of the *Society for Mathematical Psychology*.
- 2012. Member of the Committee on Scientific Integrity for the Department of Psychology at the University of Amsterdam.
- 2011. Member of the committee for the Best Thesis Award from the Dutch Psychonomic Society (NVP).
- 2005. Member of the NSF (National Science Foundation) panel on Human and Social Dynamics (Washington D.C., May 2005).
- 1997. Co-founded BOPSY, a committee of interest for PhD-students at the Psychology Department of the University of Amsterdam. Chairman of BOPSY from 1997–1998.

TEACHING

- 2016–2021. Good Research Practices (master course; with Dora Matzke).
- 2017–2021. Bayesian Inference for Psychological Science (master course; with Dora Matzke).
- 2021. Two half-day online workshops “Classical inference with JASP” for the Epsom and St Helier University Hospitals, Surrey, UK, June 2021.
- 2021. Behavioral Data Science (1st year undergraduate course, with Denny Borsboom).
- 2021. Two-day online workshop “Bayesian inference with JASP” for the Leuphana Universität Lüneburg, Germany, March 2021.
- 2021. Two half-day online workshops “Bayesian inference with JASP” for the Department of Psychology at the University of Duisburg–Essen, Germany, February 2021 (with Angelika Stefan).
- 2013–2019. Three guest lectures for the bachelor course “Scientific and Statistical Reasoning” for second-year psychology students.
- 2019. Full-day workshop “Bayesian inference with JASP” for the 84th Annual Meeting of the Psychometric Society, Santiago, Chili, July 2019.
- 2019. Half-day workshop “Bayesian inference with JASP” for the Society for the Improvement of Psychological Science (SIPS), held in Rotterdam, The Netherlands, July 2019.
- 2019. Two half-day workshops “Bayesian statistics with JASP” for the Swiss Open Psychological Science Initiative, held in Geneva and Zürich, Switzerland, July 2019.
- 2018. Two-day workshop “Bayesian statistics with JASP” for the Kingston Business School, London, UK, May 2018.
- 2018. Two-day workshop “Bayesian statistics with JASP” for the Department of Psychology at the Johannes Gutenberg University, Mainz, Germany, March 2018.
- 2017. Half-day lecture for the bachelor course “Fundamentals of Methodology”.

- *2017*. Half-day workshop “JASP Training Course” for the 20th Conference of the European Society for Cognitive Psychology (ESCoP), Potsdam, Germany, September 2017.
- *2009–2017*. A Practical Course in Bayesian Modeling (master course). Also taught this course: in 2010, as a one-week block seminar at the CITEC department of the University of Bielefeld, Germany; in 2014, as a one-week workshop at Aarhus University, Aarhus, Denmark (together with Michael Lee); in 2018, as a two-day workshop at the Max Planck Institute for Empirical Aesthetics, Frankfurt, Germany (together with Michael Lee).
- *2017*. One-day workshop “Bayesian statistics with JASP” for the Department of Clinical Psychology at the University of Utrecht, Utrecht, The Netherlands.
- *2017*. Half-day workshop “Bayesian Inference with JASP: A Fresh Way to Do Statistics” for the 29th Annual Convention of the Association for Psychological Science, Boston, USA, May 2017.
- *2017*. Half-day workshop “JASP: A Fresh Way to do Statistics” for the BBSRC STARS Course “Advanced Methods for Reproducible Science”, Windsor, UK, April 2017.
- *2017*. One-day workshop “Bayesian Inference in Theory and Practice: A JASP Workshop” for Philips Research, Eindhoven, The Netherlands, March 2017.
- *2017*. Lecture “A personal perspective on the analysis of neuroscience data” for the 6th Berlin Winter School on Ethics and Neuroscience, Berlin, Germany, February 2017.
- *2017*. Two-day workshop “Bayesian analysis with JASP: A fresh way to do statistics” for the International Max Planck School for Language Sciences, Nijmegen, The Netherlands.
- *2016*. Two-day workshop “Bayesian statistics” for the Behavioural Science Institute at the Radboud University, Nijmegen, The Netherlands.
- *2016*. Two-day workshop “Bayesian analysis with JASP: A fresh way of doing statistics” for the Department of Psychology at the University of Milano-Bicocca, Milan, Italy.
- *2016*. Workshop “Bayesian vs. frequentist statistics: A JASP workshop” at the Brain & Mind symposium, Helsinki, Finland.
- *2016*. One-day workshop “Bayesian analysis with JASP: A fresh way of doing statistics” at the University of Gothenburg, Sweden.
- *2016*. Two-day workshop “Bayesian analysis with JASP: A fresh way of doing statistics” at the Catholic University of Leuven, Leuven, Belgium.
- *2016*. One-day lecture series on Bayesian inference for KLI students (Amsterdam, The Netherlands).
- *2016*. One-day lecture series on Bayesian inference for the Erasmus+ program “Tools for Teaching Quantitative Thinking” (Arrifana, Portugal).

- *2015*. Good Science, Bad Science (master course). The course website is at <http://www.ejwagenmakers.com/GSBS/GSBS.html>.
- *2006–2015*. Scientific Writing and Presenting (master course). In 2009, also taught this course at the University of Basel, Switzerland. In 2011, runner-up for the award of “best teacher in the UvA Psychology Research Master” (out of 24 nominees).
- *2015*. Two-day workshop “Bayesian Hypothesis Testing Using JASP” at Bern University, Bern, Switzerland (together with Jonathon Love).
- *2015*. Two-day lecture series on Bayesian hypothesis testing for the seminar on “A Quantitative Approach to Psychological Processes: Modeling, Testing, Fitting” (Balatonfoldvár, Hungary).
- *2014*. Co-lecturer for the VW Foundation Summer School in Cognitive Modeling, Laufen, Germany.
- *2008, 2009, 2011, 2012, and 2013*. Module “Knowledge” (part of a three-year course, co-taught with Angelique Cramer, Denny Borsboom, or Rogier Kievit).
- *2012, 2013*. Co-lecturer for the three-day workshop “What is Psychometrics?” for IOPS PhD students.
- *2011, 2013*. One-day workshop “Positive Journal Interactions” for EPOS PhD students.
- *2011–2013*. Guest lecture on Bayesian inference for the master course “Learning to Analyze Neural Data”.
- *2012*. One-day workshop “Theory and Practice of Bayesian Inference” at the Radboud University, Nijmegen, the Netherlands.
- *2012*. One-day workshop “Bayesian Inference Using WinBUGS” for KLI PhD students.
- *2012*. Co-lecturer for the SNF Summer School in Computational Modeling of Cognition, Bergün, Switzerland.
- *2011*. Experimental Design (bachelor course).
- *1998, 1999, 2000, 2003, 2004, 2005, 2006, 2009, and 2011*. Research Practice: Applied (“Onderzoeksgroepen”, bachelor course).
- *2011*. Invited lecture for the HOVO course “Gebruik en Misbruik van de Statistiek” (use and misuse of statistics) at Leiden University.
- *2010*. Co-lecturer for the ESCoP Summer School in Computational and Mathematical Modelling of Cognition, Mallnitz, Austria.
- *2009*. Mathematical Psychology (master course, co-taught with other faculty).
- *2009*. One-day workshop “Bayesian Modeling for Cognitive Science”, co-taught with Michael Lee and Ruud Wetzels.
- *2009*. Two-day lecture series on Bayesian Modeling for the Socrates–Erasmus Intensive Programme on “Formal Models and Quantitative Methods for Psychology” (Blaubeuren, Germany).

- *2008 and 2009.* Module “Modeling” (part of a third-year course, co-taught with Han van der Maas and Ruud Wetzels).
- *2008.* Two-day lecture series on Model Selection for the Socrates-Erasmus Intensive Programme on “Mathematical and Computational Models in the Psychological Sciences” (Padova, Italy).
- *2007 and 2008.* Scientific Writing (EPOS course for PhD students).
- *2006, 2007, and 2008.* Current Issues in Cognitive Science (master course).
- *2007.* Statistical Inference (bachelor course, co-taught with Gunter Maris).
- *2007.* Two-day lecture series on Reinforcement Learning for the Socrates-Erasmus Intensive Programme on “Mathematical and Computational Models in the Psychological Sciences” (Bremen, Germany).
- *2006 and 2007.* Computational Psychology (master course).
- *2005.* JavaScript Programming (master course).
- *2004 and 2005.* Introduction to Cognitive Science / Memory: A Cognitive Science Approach (master course).
- *2004 and 2005.* Model Construction in Psychology (bachelor course).
- *2000.* Research Practice: Theory (“Basisdeel OnderzoeksPracticum”, bachelor course).
- *1998 and 1999.* Experience with Psychonomic Experiments (“Experimentatie in de Psychonomie”, bachelor course).
- *1997.* Together with Durk Talsma, designed the HOVO course “Hersenen, Mentale Processen en Gedrag” (brain, mental processes, and behavior).
- *1995 and 1996.* Programming Experiments (bachelor course).

LAB MEMBERS
(PAST* AND
PRESENT)

- *Postdocs:* Johnny van Doorn, Noah van Dongen, Tom Hardwicke (Marie-Curie Fellow), Frederik Aust, Julia Haaf, Alexander Ly, Udo Böhm*, Nathan Evans*, Max Hinne*, Maarten Marsman*, Tahira Jamil*, Josine Verhagen*, Martijn Mulder*, Leendert van Maanen*.
- *Software engineers:* Bruno Boutin, Joris Goosen, Tim de Jong, Amir Abdol, Qixiang Fang, Sophie Berkhout, Jill de Ron, Akash Raj, Šimon Kucharský, Frans Meerhoff*, Bart van Dalen*, Erik-Jan van Kesteren*, Jan Gerrit Voelkel*, Patrick Knight*, Damian Dropmann*, Jonathon Love*.
- *PhD-students:* Kay de Wit (at TNO, with Victor Kallen and Ilja Sligte), František Bartoš, Koen Derks (at Neyenrode Business University, with Ruud Wetzels and Jacques de Swart), Angelika Stefan, Šimon Kucharský (with Ingmar Visser and Maartje Raaijmakers), Fabian Dablander, Don van den Bergh, Suzanne Hoogeveen (with Michiel van Elk), Alexandra Sarafoglou, Johnny van Doorn*, Quentin F. Gronau* (cum laude), Udo Böhm* (with Hedderik van Rijn; cum laude), Alexander Ly* (cum laude), Helen Steingroever* (cum laude), Ravi Selker*, Dora Matzke* (with Conor Dolan; cum laude), Ruud Wetzels* (cum laude), Don van Ravenzwaaij* (cum laude), Gilles Dutilh* (cum laude).

- *Research-assistants*: Michael Koch, Malte Lüken, František Bartoš*, Maximilian Maier*, Myrthe Veenman*, Šimon Kucharský*, Tim Draws*, Koen Derks*, Julian Burger*, Don van den Bergh*, Alexandra Sarafoglou*, Tim de Jong*, Quentin Gronau*, Titia Beek*, Laura Dijkhoff*, Ravi Selker*, Anja Somnavilla*, Helen Steingroever*, Joram van Driel*, Angelos Kryptos*, Sven Stringer*, Dora Matzke*, Tom Lodewyckx*, Don van Ravenzwaaij*, Ruud Wetzels*, Gilles Dutilh*.
- *International students*: Deniz Tuzsus*, Julius Pfadt*, Angelika Stefan*, Akash Raj*, Johnny van Doorn*, Felix Wolff*, Martin Šmíra*, Lutz Ostkamp*, Akhil Hens*, Darja Tutschkow*, Avinash Barnwal*, Annika Boldt*, Oliver Dyjas*, Himanshu Kuriyal*, Esther Stroe-Kunold*, Tom Lodewyckx*.

THESIS
OPPOSITION

Member of the thesis committee for: Joost Kruis (University of Amsterdam), Noah van Dongen (Università degli Studi di Torino), Erik-Jan van Kesteren (Utrecht University), Jacqueline Zadelaar, Jonas Haslbeck, Duco Veen (Utrecht University), Linda Geven (University of Amsterdam), Fayette Klaassen (Utrecht University), Jolien Cremers (Utrecht University), Riet van Bork (University of Amsterdam), Alexander Savi (University of Amsterdam), Robbie van Aert (Tilburg University), David Maij (University of Amsterdam), Michele Nuijten (Tilburg University), Sara Steegen (University of Leuven), Coosje Veldkamp (Tilburg University), Florian Böing-Messing (Tilburg University), Paul Williams (University of Newcastle, Australia), Sacha Epskamp (University of Amsterdam), Jorrit Montijn (University of Amsterdam), Xin Gu (Utrecht University), Stijn Verdonck (University of Leuven), Wouter Kruijne (Free University, Amsterdam), Rivka de Vries (University of Groningen), Angelos Kryptos (University of Amsterdam), Maarten Marsman (University of Twente), David Neville (University of Amsterdam), Andrei Teodorescu (Tel-Aviv University), Vivien Marmelat (Free University, Amsterdam, and University of Montpellier), Sandra Andraszewicz (University of Basel), Marjan Bakker (University of Amsterdam), Jesper Tijnstra (Utrecht University), Angelique Cramer (University of Amsterdam), Rogier Kievit (University of Amsterdam), Annemarie Zand Scholten (University of Amsterdam), Esther Stroe-Kunold (University of Heidelberg), Christopher Donkin (University of Newcastle), Joachim Vandekerckhove (University of Leuven), Jiaxiang Zhang (University of Bristol), Kjerstin Torre (University of Montpellier), Lourens Waldorp (University of Amsterdam), and Raoul Grasman (University of Amsterdam).
